**X12**

## X12 MISSION

X12 is an ANSI-accredited, consensus-based, non-profit organization focusing on the development, implementation, and ongoing use of interoperable electronic data interchange standards

**X12**

# X12 GOALS

- Be a developer of stable and trusted products that support effective data exchange
- Be open-minded with vision and insight related to exchanging transactions in both current and developing technologies
- Be an enthusiastic collaborator with industry groups, government entities, and businesses
- Maintain a financial model that distributes costs and ensures the fiscal health of the organization

## Committee on Operating Rules for Information Exchange

10

CORE Operating  
Rules Mandated  
Under HIPAA

CORE is the **trusted, independent author of operating rules**, offering both mandated and voluntary rule sets.

\$46B

Annual Industry Cost  
Savings Attributed to  
CORE Operating  
Rules

Using CAQH Index® data, CAQH Insights identified annual savings of \$26 billion for providers and \$20 billion for health plans resulting from implementation of the mandated CORE Operating Rules.

100+

Multi-stakeholder  
Participating  
Organizations

From small provider organizations, to national health plans, CORE has the **unique ability to bring diverse industry stakeholders to the table** to tackle complex administrative problems together.

# CORE Operating Rules Support Key Revenue Cycle Functions

## Operating Rule Definition:

The “necessary business rules and guidelines for the electronic exchange of information that are not defined by a standard or its implementation specifications.”

Christol Green, Elevance  
Bob Bowman, CAQH

# Industry Questions

- **X12 275 Reassociation**  
How does the X12 275 reassociate with the 837 or the 278 transactions? What version of the X12 275 is implemented?
- **Clinical Documentation Formats**  
Does the X12 275 transaction support PDF, CDA or C-CDA formatted clinical documentation?
- **Acknowledgements**  
What should a provider expect to receive as an acknowledgement that the X12 275 was received by the health plan?
- **Solicited and Unsolicited Support**  
Support for solicited or unsolicited seems to vary among health plans – is there an approach that can meet providers where they are?

# CORE Electronic Attachments Study Findings

Bob Bowman, CAQH

# CORE ATTACHMENTS STUDY

## Overview and Objectives

**To test the impact of CORE's Attachments Rules, a national health plan partnered with CORE in a study focused on unsolicited claim attachments.**

### **CORE Objectives:**

- Drive Adoption: Accelerate industry wide adoption by demonstrating cost and workflow efficiencies
- Inform Policy: Quantify cost savings for future recommendations
- Enhance Automation: Identify opportunities for refinement
- Align Processes: Ensure rules support organizations in various stages of adoption
- Measure Impact: Assess rule adoption impact on efficiency

### **Health Plan Objectives:**

- Seamless Integration: Align with CORE Attachments Operating Rules
- Enhanced Claim Accuracy: Reduce denials with upfront documentation
- Expedited Processing: Speed up claim finalization

**Three submission methods were compared:**

X12 275 EDI transaction

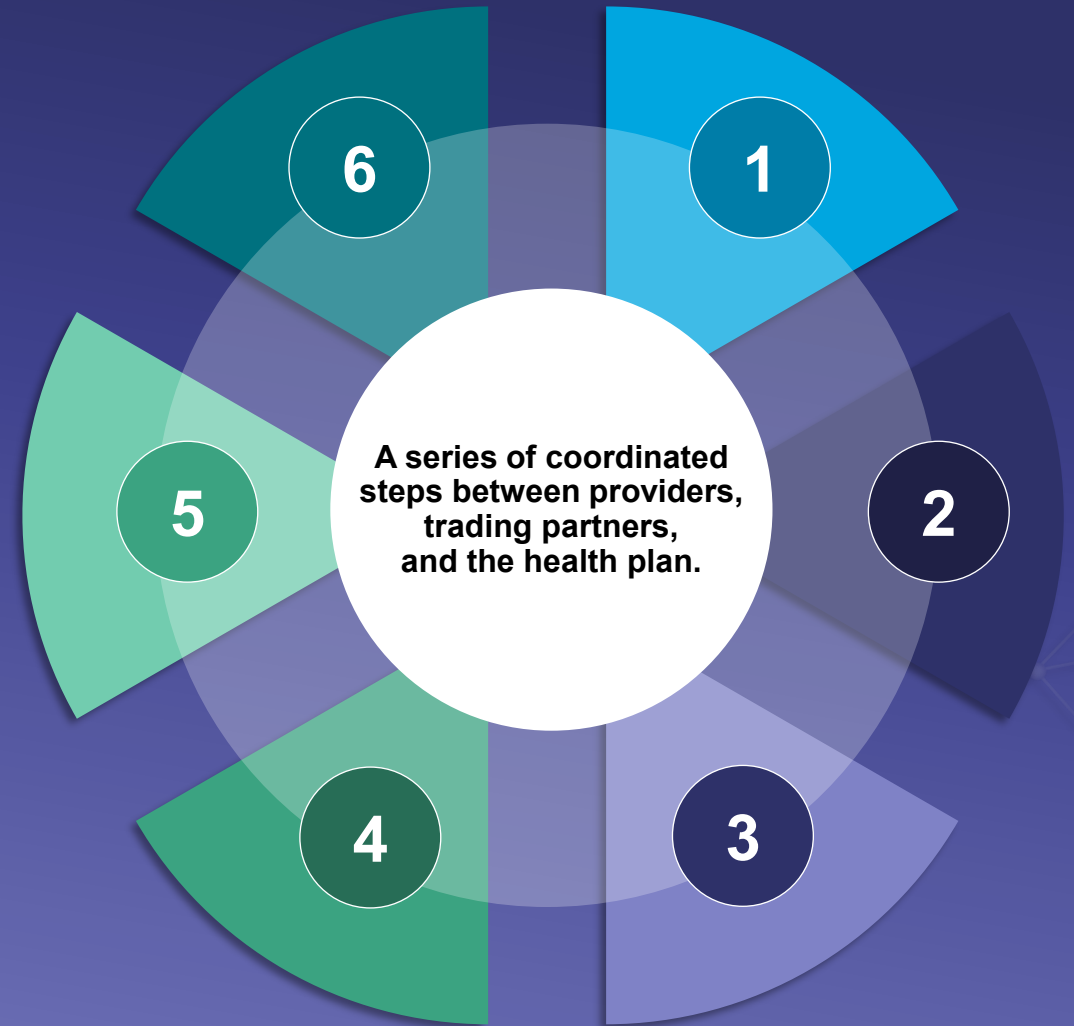

Health plan web portal

Manual (fax/mail)

# CORE ATTACHMENTS STUDY

## Workflow

- 1 Claim Submission:** Providers submit claims electronically (X12 837) or manually (HCFA 1500/UB-04); non-EDI claims are converted or submitted via web portal.
- 2 Attachment Identification:** Claims include Attachment Control Number (ACN) per CORE rules for accurate matching.
- 3 Attachment Submission:** Attachments sent via X12 275 or non-EDI methods (fax, mail, portal); trading partners convert to EDI.
- 4 Integration & Error Handling:** Claims and attachments matched using ACN; errors flagged via X12 999 for better tracking.
- 5 Updates & Acknowledgments:** No need to resend attachments for voided/replacement claims; acknowledgments via X12 999/824.
- 6 Automation & Optimization:** Workflow automated with ACN scrubber and SFTP; only clinical review remains manual.

# CORE ATTACHMENTS STUDY

## Key Metrics and Results

### Increase in Trading Partners

Number of clearinghouses onboarded increased from

**1 to 5**

### Substantial Cost Savings

Cost savings associated with EDI vs. manual/portal

**55%**

### Strong Reassociation Rate

$$\frac{[\text{EDI Claim Attachments Matching to a Claim}]}{[\text{Total Claim Attachment Transactions}]}$$

**> 90%**

#### Transaction Volume Trends (Q2 2022 – Q4 2023):

- EDI Transactions: Increased from 8% to 24%
- Manual Transactions: Decreased from 62% to 38%
- Web Portal: Increased from 29% to 38%

#### Process Improvements:

- Faster turnaround
- Fewer errors and denials
- Higher matching accuracy

# Audience Q & A

---

# Call to Action

---

## WHAT CAN YOU DO

- Become an [X12 Member](#)
- Participate in [X12 Standing Meetings](#)
- [Submit requests](#) for functionality your organization needs

# X12 IS LISTENING

- X12 is being more intentional about collecting input and feedback
- Frequent surveys are issued to members, members and non-members, non-members, implementers, or other combinations of stakeholders
- Utilize a permanent online feedback form, making it easy for anyone to provide X12 with ideas or comments:  
[X12.org/feedback](https://x12.org/feedback)

# Get involved with CORE!

## Become a CORE Participant

Collaborate with decision makers that comprise 75% of the industry to drive creation of operating rules and accelerate interoperability.

## Get CORE Certified

Does your organization use standard transactions on a day-to-day basis?  
Demonstrate conformance and commitment to streamlining administrative data exchange.

## Participate in Pilot Initiatives

Work with CORE to measure the impact of operating rules and corresponding standards on organizations' efficiency metrics.

## Be an Advocate

Stay up to date on new policy initiatives and send in comment letters to provide support and feedback.
