

Increasing adoption of Electronic Funds Transfer (EFT) to replace paper checks continues to be challenging for many health plans. Trying to enroll all healthcare providers — especially lower volume practices — can be difficult, leading to a “two-tier” payment system requiring expensive, time-consuming manual payments.

CAQH has developed a simple, cost-effective solution to help health plans move closer to universal EFT. EnrollHub[™], a CAQH Solution[®], combines enrollment capabilities for EFT and Electronic Remittance Advice (ERA), enabling healthcare providers to use a single, secure on-line process to enroll with multiple health plans at once. EnrollHub then sends their enrollment information directly to each authorized participating health plan.

This easy-to-use enrollment tool — available at no charge to healthcare providers — encourages greater provider participation and satisfaction:

- Providers are able to access EnrollHub online at any time to easily make changes, helping ensure health plans have up-to-date information.
- The EnrollHub team works closely with your health plan to engage your providers with a robust outreach effort to encourage them to enroll.
- More than 1.6 million providers are part of CAQH ProView[®] (the next generation of the Universal

Provider Datasource[®]) to share their credentialing and other practice information. They already know and trust CAQH electronic solutions.

EnrollHub can be used independently or integrated with your current EFT and ERA enrollment tool. This

Streamlining EFT and ERA Enrollment for Health Plans and Providers.

solution lowers your EFT costs in other ways, by offering provider support services with a dedicated help center and by verifying the provider data prior to sending it to your health plan.

Learn how EnrollHub can reduce the challenges of EFT and ERA enrollment for your health plan. Find out more by visiting our website at www.caqh.org/eft_enrollment.php or email us at eft@caqh.org.

What CAQH EnrollHub Offers Your Health Plan:

- A simple, cost-effective solution to help you achieve wider use of Electronic Funds Transfer (EFT), combining enrollment processes for EFT and Electronic Remittance Advice (ERA).
- Reduced costs by decreasing manual payments, validating provider data, and offering provider support services with a dedicated CAQH help center.
- EnrollHub can be used independently or integrated with your current EFT and ERA enrollment tool.
- Helps your health plan meet the EFT and ERA enrollment operating rule requirements of the Patient Protection and Affordable Care Act (ACA).

What EnrollHub Offers Your Healthcare Providers:

- A single, easy, secure process for EFT and ERA enrollment with multiple health plans — available at no charge to providers.
- Online access 24/7 enables providers to easily make changes at any time, ensuring your health plan records have up-to-date information.
- A dedicated CAQH help center to assist providers with questions or problems associated with their EFT and ERA enrollment.
- Another trusted IT solution from CAQH — CAQH ProView — is already engaging more than 1.6 million providers.
- Find out more by visiting our website at www.caqh.org/eft_enrollment.php or email us at eft@caqh.org.
