

# HEALTHCARE LEADERS:

# LET'S ALL GET ON THE SAME PAGE.

Imagine an American healthcare system where doctors and hospitals can instantly verify patient insurance information before or at the time of care. From any health plan. With any electronic system.

It's happening today through a set of rules created by the CAQH Committee on Operating Rules for Information Exchange (CORE).

By implementing the CORE rules, CORE-certified organizations are speaking the same language. Improving data consistency. Reducing paperwork. Advancing system interoperability. And supporting information transparency for consumers.

It's time to get on the same page. Get certified to use the CORE rules or become a CORE Endorser. Learn more by visiting [www.coreconnect.org](http://www.coreconnect.org).

GE Healthcare

Thanks to these additional leading organizations who are helping to establish the CORE rules.
