

# Provider credentialing just got easier.

Verify primary source information with greater accuracy, speed and control.

## BENEFITS

- Deep insight into the primary source verification (PSV) process
- Improved provider engagement
- Eliminates manual data entry
- Reduces file delivery turnaround time

## HOW IT WORKS

- Seamlessly extracts data from CAQH ProView during the PSV process
- Systematically queries 86 percent of primary sources
- Granular self-service reporting
- Aligns with NCQA, Medicare Advantage and Medicaid requirements

## PROVEN RESULTS

**95%**

Initial provider files returned  
within 11 to 14 days

**98.5%**

Files delivered with accuracy  
and completeness

**100%**

Recredential files delivered 60 days  
before the provider target date
