

## High quality, self-reported dentist data without the manual paperwork.

With participation of 60,000 dentists and the nation's leading dental plans, CAQH ProView is the trusted source for accurate and up-to-date credentialing information.

### BENEFITS

- Access complete, current and compliant dentist information for credentialing and other business needs
- Download data in convenient formats on-demand or on a schedule
- Eliminate outdated manual processes, paper forms and faxes
- Improve data quality, and decrease processing delays

### HOW IT WORKS

- Add dentists to your roster in bulk or individually to trigger automated attestation reminders
- Download dentist data and attachments in the format — and when — you need it
- Manage your roster and know the status of selected dentists or your entire roster
- Receive technical support and promotional resources to increase dentist participation and the efficiency and effectiveness of your credentialing program
