Continuous sanctions monitoring. High quality provider network maintenance.

SanctionsTrack works in conjunction with CAQH ProView to give your organization the information needed to maintain a high-quality provider network and ensure contracting confidence.

**BENEFITS**

- Improves network quality by ensuring that sanctioned providers are quickly identified and excluded as appropriate
- Identifies providers with multiple state licenses
- Automatically flags all sanctioned providers on the roster of a participating organization
- Includes reporting on providers who voluntarily “opt-out” of Medicare

**HOW IT WORKS**

- Uploads data to CAQH ProView nightly and automatically flags any sanctioned providers on an organization's roster
- Continuously monitors state licensing boards and other federal sources for sanctions and disciplinary actions
- Automates the manual process of checking licensing boards, OPM and OIG, and matching for provider disciplinary actions
- Reduces hours of staff time and eliminates redundant processes

**PROVEN RESULTS**

**NCQA**
Meets all NCQA factors for a delegation agreement

**4.5**
Average number of days between a licensing board posting an action and SanctionsTrack reporting the event

**500**
State licensing boards and federal sources monitored for sanctions
