CAQH Solutions℠

An integrated, complete credentialing solution

For health plans, it's no secret that credentialing can be complicated and costly. CAQH offers a suite of solutions on one unified data management platform to expedite the collection, verification and ongoing monitoring of provider data.

Simplifying credentialing with a powerful workflow
CAQH unifies data collection into a powerful workflow that automates every step in the credentialing process and reduces abrasion for your provider network and internal credentialing staff.

- **Collection:** The CAQH Provider Data Portal uses universal standards, automated outreach and data validation to ensure providers submit complete and accurate credentialing applications.

- **Verification:** Provider data is automatically verified anytime a provider updates their information. This seamless process returns 95% of credentialing files within 8-14 days from date of request.

- **Monitoring:** CAQH continuously monitors for sanctions from more than 500 state and federal sources and findings are reported within 4.5 days of an action being posted.

- **Data Governance:** CAQH complies with data collection requirements for NCQA, URAC, and JCAHO and data is secure using HITRUST CSF best-in-class data protection standards.

- **Nationwide Coverage:** CAQH Credentialing applications are accepted in all 50 states, even those with unique state forms.

Building a better network

A shorter, more cost-effective credentialing cycle empowers your organization to build and maintain a high-quality network and give your members access to the best possible care.

- Lower costs by automating manual and time-consuming processes.
- Reduce time from initial credentialing to provider network participation.
- Improve productivity through no-touch processes and automated provider outreach.
- Scale with credentialing demand to avoid need for additional headcount.

"The data quality is very good, the processes are automated, and we've been able to reduce staff time. We now depend on CAQH Solutions to help our plan bring efficiencies to the provider credentialing and re-credentialing processes."

– Blue Cross and Blue Shield of Alabama

Driving change with technology

CAQH solutions automate workflows, deliver a wealth of accurate and actionable data, and create a better experience for both providers and health plans.
