CAQH
Solutions℠

An Added Layer of Protection for Your Members

Monitoring sanctions between re-credentialing cycles

The CAQH Sanctions Monitoring Solution is seamlessly integrated into the Credentialing Suite, giving your organization the information needed to maintain a high-quality provider network and ensure contracting confidence.

Automatically identify sanctioned providers

- Queries nearly 500 state licensing boards and Federal sources for sanctions and disciplinary actions.

- Identifies providers with sanctions and providers who voluntarily "opt out" of Medicare.

- Uploads data to the CAQH portal nightly and flags any sanctioned providers on an organization's roster.

- Includes a screen capture of the sanction in the alert along with additional details a plan may need.

- Enables custom reporting and on-demand searches by provider name, state, date range or sanctions type.

Improve the safety of your network

- **Automated data extracts** for licensing boards and 500 other sources.

- **Reduces staff time** spent researching, reviewing and reporting sanctions.

- **Provides timely information** for provider credentialing and evaluation decisions.

- **Improves network quality** by quickly identifying sanctioned providers and alerting the health plan.

- **Complies with federal and state** provider network requirements.

caqh.org/credentialing

A vigilant approach to provider data

CAQH continuously monitors state licensing boards and other federal sources for sanctions and disciplinary actions. The solution identifies issues, including providers with multiple state licenses, and flags all sanctioned providers on health plan rosters, automating a manual process.

The Strength of Our Data

NCQA-certified CVO
for adhering to the highest quality and process standards

98%
accuracy in sanctions detection

1800+
sources checked nationwide for various practitioner types

290K+
sanctions records delivered to the Provider Data Portal

Driving change with technology

CAQH solutions automate workflows, deliver a wealth of accurate and actionable data, and create a better experience for both providers and health plans.
